PLAYING THE GAME

HOW IT WORKS

Craps is an exciting, fast-paced, action-packed game utilizing a pair of dice. Here are some basics to get you started shooting Craps.

One player, known as the "Shooter", throws the dice. All wagers must be placed before the shooter throws the dice. The types of wagers that can be made are:

Pass Line: An even money bet, made on the first roll of the dice (known as the "Come Out Roll"). You win if a 7 or 11 roll, or lose if 2, 3, 12 roll (known as "Craps"). Any other number that rolls becomes the "Point" and the point must be rolled again before a 7 to win. A "Pass Line" bet cannot be removed after the point is established.

Don't Pass Line: An even money bet, which is the opposite of the pass line. You lose on the "Come Out" roll if the shooter rolls a 7 or 11. You win on a 2 or 3 (12 is a push). Once a point is established, you lose if the point is thrown and win if 7 rolls. "Don't Pass" bet cannot be placed after the point is established.

Come Bets: Made any time after a shooter has established a point. You win on a 7 or 11 and lose on a 2, 3, or 12. Any other number becomes your "Come Point" and must be repeated for you to win before 7 rolls.

Don't Come Bets: Made any time after a shooter has established a point. It is the opposite of the come bet. You win if 2 or 3 roll (12 is a push), and lose if 7 or 11 roll. Any other number rolled becomes your "Don't Come Point" and if repeated you lose. If 7 rolls you win.

Odds: Once a point is made on the first roll or a come point on a succeeding roll, you may take the odds and win if the point or come points are made before a 7. Payoffs are:

4 and 10	2 to 1
5 and 9	3 to 2
6 and 8	6 to 5

"Don't Pass" or "Don't Come" bets are in reverse: you must lay the odds in order to win.

Place Bets: You may make a "Place Bet" on numbers 4, 5, 6, 8, 9 and 10. If the shooter rolls any of these numbers before a 7, you win the following payoffs:

4 and 10	9 to 5
5 and 9	7 to 5
6 and 8	7 to 6

Buy Bets: Is paying a commission to receive true odds on a number, and that number will roll before a seven.

Lay Bets: Is betting that a seven will roll before the number where the bet is placed, you must pay a commission to bet a lay bet.

Field Bets: A one roll bet. You win even money on 3, 4, 9, 10, and 11. You win 2 to 1 on 2 and 12. Any other number you lose.

Proposition Bets: These bets are found in the center of the table and are one-roll bets. You are betting on the very next roll of the dice that any of these numbers will roll.

Any Craps (2, 3, or 12)	7 to 1
Aces or Twelve	30 to 1
Ace-Deuce or Eleven	15 to 1
Sevens	4 to 1

Horn High Bets: A Horn High Bet is a one roll bet like the Horn Bet with the exception that one designated number has one extra unit bet on it. Horn High Bets are made in unit amounts of five. The player wins if any 2, 3, 1, or 12 is rolled and loses if another number is rolled.

Horn Bets: A Horn Bet is one roll bet made with equal amounts of money on each of the 2, 3, 11, and 12. If any of these numbers are rolled, the bet wins. If any other number is rolled, the bet loses. This wager will require a minimum of \$4.

Hop Bets: A Hop Bet is a one roll bet that the next roll of the dice will land the way a player "hopped" it. i.e "3-2 hopping" is a bet that the next roll of the dice will come "3-2," otherwise the bet loses.

Hardways: A Hardway bet is not a one-roll bet. You are betting that the shooter rolls a pair. Hardways win if the dice roll as a pair and lose if 7 rolls or if the number is thrown "the easy way". Example: If you bet a hard 8 and the dice roll 4-4 you win. If the dice roll "easy" 5-3 or 6-2 you lose.

Hard Four or Ten	7 to 1
Hard Six or Eight	9 to 1
